## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-9 and 19-20 are allowed.

The following is an examiner's statement of reasons for allowance.

The subject matter of claims 1-9 is allowable over prior art of record, because all prior arts fail to teach or suggest a data transmission method for transmitting data in a system having a host apparatus and at least one terminal apparatus, comprising the steps of: forwarding a transmission request from the host apparatus to the terminal apparatus; forwarding a communication request from the terminal apparatus to the host apparatus in response to the transmission request, the communication request containing a timer value of a timer contained in the terminal apparatus, ***said timer value representing a time when the terminal apparatus has come into a communication possible state; and conducting polling from the host apparatus to the terminal apparatus, which has forwarded the communication request, according to an identification information based on the received timer value.***

The subject matter of claim 19 is allowable over prior art of record, because all prior arts fail to teach or suggest a communication apparatus for use in data transmission with at least one terminal apparatus connected to the communication

Art Unit: 2665

apparatus, the communication apparatus comprising: a communication controller for forwarding a transmission request to said terminal apparatus and for receiving from said terminal apparatus a reply corresponding to the transmission request; an identification information establishing unit for extracting a timer value obtained from said terminal apparatus from the reply, which is received from the terminal apparatus by said communication controller, ***said timer value representing a time when the terminal apparatus has come into a communication possible state; and a polling unit for implementing polling to the terminal apparatus using the identifying information based on the timer value.***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Yamaguchi et al. (U.S. Patent No. 6,246,696) discloses a communication control apparatus with a terminal ID information transmission section to transmit the terminal ID in accordance with a value set by a timer (fig. 16 and col. 21 line 16-20). But, the timer value was not transmitted.

Watanabe et al. (U.S. Patent No. 5,886,646) discloses a transmission terminal includes a timer, which starts when the ID code is generated (col. 3 lines 17-23).

Imai et al. (U.S. Patent No. 4, 654,483) discloses an identification system to identify a storage unit is determined by using a timer (col. 21 lines 7-10 and 49-59).
